Colby SGA Formal Minutes  
*All minutes are paraphrased*  
Absent: N/A

I. **Motions**

1. **Add Bylaw 21-01: Working Group Accountability to the Constitution**
   - Laura: The purpose of this bylaw is to add clarifications to working groups as well as some accountability. The purpose of this motion is to give clarity to the processes of these groups and to propose that they meet biweekly (4-5 meetings this semester). Additionally, all working groups will need to create a presentation for our last meeting of the semester to reflect on the work that the group did. One other little caveat is that if one member misses 3 meetings, they cannot put their name on any of the motions put forth by the working group.
   - Jason: Unanimous, this motion has been approved.

2. **Make Grammar, Punctuation, and Spelling Edits in the Constitution**
   - Laura: There are a lot of fragmented sentences within the SGA Constitution and it needs to be grammatically revised. This motion is important to make this document look more polished, especially when we have administration and other students reading it.
   - Jason: Unanimous, this motion has been approved.

3. **Add Amendment: Non-Discrimination Policy within SGA Greater Community**
   - Nischal: This motion just proposes to include a non-discrimination policy within Article I of the SGA Constitution. We reviewed peer institutions non-discrimination policy to update our language with theirs.
   - Ellie: There’s a few grammatical errors. It says “its members” with an apostrophe and says “limited to, in the basis of.”
   - Jason: Unanimous, this motion has been approved.

4. **SGA Constitution Article IV Committees**
   - Chris: This motion just serves to update the language in the Constitution regarding Committees. We want to more accurately reflect what committees are being offered each academic year. Additionally, this motion proposes that two bylaws that have already been approved by last year’s SGA be added to the Constitution.
   - Keegan: Found on is listed as a single word within the appendix.
   - Jason: Unanimous, this motion has been approved.
