

*Motion to Change Chairs of Traditions Committee*

**The What:** Changing the chairs of the Traditions Committee to be sat in by two of the Senior Class President's Council, as opposed to the Senior Class Co-Presidents.

**The How:** Editing the current SGA Constitution section on the Traditions Committee from saying "SGA Senior Class Co-Presidents (Chairs)" to "Two SGA Senior Class President's Council Members (Chairs)"

**Strengths and Importance:** The Senior Class Co-Presidents already have a great deal of responsibilities and are stretched quite thin. By providing the option for two other Senior members of SGA to chair this committee, it will both ease the burden on the Co-Presidents as well as allowing the chairs of Traditions Committee to be more dedicated to the cause and able to devote more time and energy towards its operation and development.

**Possible Risk Areas:** While many Senior Co-Presidents may not want this extra responsibility, some might still want to take on being the chairs of this committee. However, the wording of the proposed change leaves room for any member of the Senior Class President's Council, Senator or President, to chair the Traditions Committee.

**Intuition and Questions Already Addressed:** What types of things have you already thought through that SGA members should know about?
